Thinking Out Loud

By H. M. L.

The men and women who dream great things for the mining industry of this section, and make their dreams come true, sat down to dinner Saturday night in Auburn. They were there to celebrate a victory that has been 44 years in coming, for it was in 1894 that the late Congressman A. Camminetti succeeded in passing the Camminetti Act. It has been a long hard road that a few devoted souls, believing in the feasibility of placer mining without injury to the agricultural interests of the valley below, have traveled.

As explained by Congressman Englebright Saturday night, the Camminetti Act while it did provide a way for erecting debris dams, the way was too difficult and expensive for individual owners of placer land. It was only through his amendment to the act, providing that the Federal government should put up the initial cost, that the Camminetti Act has finally been implemented.

In the meantime, mining interests, agricultural interests, and commercial interests of the United States, have suffered because hydraulic mining was abruptly halted. The booming towns that were supported along the San Juan Ridge, for instance, dwindled away. Cultivated fields went back to the forest. Apple and cherry orchards degenerated and became sad spectacles of neglect. Trees grew in once busy streets. Yet delapidated, emaciated, sorry, weary and worn, as were these "ghost" towns, the spirit to fight on, was there. And there was a powerful factor to help them.

Buried in these tremendous deposits of Tertian gravel is $600,000,000 of gold measured at the old rate of $20.67 per ounce. The owners, many of them at least, hung on to their titles. Finally the day came when they could make an effective fight. Harry L. Englebright was elected to the House of Representatives. This is his country, his well beloved home. He knew the men and women of the area in which the major portion of that vast hoard of gold is buried. He knew their hopes, long deferred and went to work.

Due to the fact that the United States Board of Army Engineers, insisted that, providing the dams were built, there should be satisfactory assurance that they would be used, Congressman Englebright rallied the owners of gravel deposits, the people most intimately affected. The result was the birth of the California Hydraulic Mining association, now the largest association of its kind in the United States. This association secured the guarantees required by the Board of Army Engineers. And now the debris dams in the American and Yuba rivers are on their way. Realization of a 44 year old dream is almost here.

While of course, releasing the huge sum of new monetary values from the gravel in which it is now lost, is in itself an enterprise of primary national importance, the effect of rehabilitating, reinvigorating the communities in proximity to the gravel deposits has still higher values. We have often declared that given water the San Juan ridge would become one of the state's lovliest areas for home builders. In many localities the soil is rich enough to support orchards and gardens. Milk cows and hogs do well in some parts.

To see the miles of ditches again running with abundant water, to see trim fruit trees, flower and vetgetable gardens growing luxuriantly as they did fifty years ago, and see hundreds of contented, happy families, boys and girls growing to sturdy citizenship again, on the ridge, this indeed, will be a greater triumph, even though incidental to bringing back the water for the giant monitors searching out the hillsides for grains of gold.

VISITS MOTHER, SISTER AFTER 27 YEARS

Mrs. Martha Roe of Butte, Mont., formerly Martha Hill, a native of Nevada City is visiting her sister, Mrs. Nancy Jones and her mother, Mrs. May Hill at their home on Lost Hill. With Mrs. Roe are her daughter and son in law Mr. and Mrs. Fred Werle and their daughter.

Mrs. James has not seen her sister for twenty seven years and it is a most happy re-union. The group will remain here for several weeks before returning to their home in Butte.

Crowd Going To Mine Workers Picnic Wed. To Break All Records

All records for attendance will be broken next Wednesday, when Nevada City and Grass Valley turn out for the Mine Workers Protective League's picnic in Lake Olympia.

This annual event is for the benefit of widows and orphans of deceased members and always attracts a big crowd, but this year, due to the fact that the membership has increased by 50 per cent during the 12 months past, thereby widening the influence of, and friendship for the organization throughout the community.

In the twenty years since the league was first organized helped hundreds of women bereft through accident or disease of their husbands and left to face the world with little children to rear. The annual picnic is the big benefit through which the widows and orphans fund is replenished each year. Every penny made at this picnic, above the expenses goes for the aid of the dependentsof members who have departed this life.

The program this year is especilly interesting. There is something in it to please, entertain and thrill every person who attends The program follows:

LABOR BOARD FAVORS C. I. O. IN WESTWOOD ALSO

Press dispatches from San Francisco state that Westwood AF of L workers are having the same difficulty with the Labor Board that the Mine Workers Protective League is having here. The dispatch follows:

Herman Stuyvelaar, secretary of the San Francisco CIO council, said today he had notified the offices of Governor Frank F. Merriam and Attorney General U. S. Webb, that the CIO feared another "purge" might be attempted in the lumber community of Westwood tomorrow.

Stuyvelaar said he received this telegram from L. H. Fenton, international officer of the CIO Woodworkers of America, who now is at Susanville.

"Vigilante action being planned at Westwood tomorrow. Apply pressure where you can to prevent. Notify authorities."

Almost coincident with the announcement Edward D. Vandeleur, secretary of state Federation of Labor, issued a statement criticizing the regional Labor Relations Board here for not certifying an AFL Lumber and Sawmill Workers Union as collective bargaining agent for the Red River Lumber Company at Westwood.

A committee visited Mrs. Alice M. Rosseter Regional Labor Board director, and was told no such certification could be issued without a hearing and possibly an election.

OPEN AIR SERVICE

Miss Bertha Clemo and Miss Elma Heecker motored to Lake Tahoe Sunday and attended the open air service held by the Episcopal church. About 300 were present and Bishop W. H. Moreland preached an especially fine sermon from the 31 chapter of Jeremiah, ninth verse. Marshall Gilesman of Nevada City played the pipe organ. A Mr. Allen of Stanford University will play the organ next Sunday. The young ladies had a beautiful lrive and enjoyed the service.

Mr. and Mrs. Jim Young returned Friday from a several months stay in the bay cities where he went on account of his health. Mr. Young is getting along nicely from a recent operation.

GOLD FLAT SCHOOL WILL OPEN AUG. 29

Jos. Day, clerk of the board of the Gold Flat school, announced Saturday that the school will reopen on Monday, August 29 for the fall term. Principal O B. Lake and assistant, Mrs. Irma Atkins, will reach the school. There were 65 pupils in the school last year and it is expected there will be a larger attendance this year.

COVERED WAGON GIANT BALLET AT STATE FAIR

SACRAMENTO, Aug. 15.—The California State Fair and Exposition which will be held in Sacramento September 2 through 11th, will offer thousands of visitors the most pretentious entertainment program ever staged on the Pacific Coast.

Secretary-Manager Robert Muckler has obtained the services of Miss Aida Broadbent, producer of more than 100 well known stage plays and the mammoth pageant "Covered Wagon Days" at Salt Lake City, to direct the giant ballet costing $30,000.

Another feature of the outdoor extravaganza will be the playing of Louis Castellucci's famous Hollywood symphonic band composed of 30 musicians. At present the band is recording for major motion picture studios and national radio networks.

Beautiful and talented girls from Hollywood are under contract to dance sequences in the revue. Among numbers in which the exotic young women will appear are the Spanish dance from the picture "Girl of the Golden West," with accompaniment from the opera "Carmen." The ensemble will have such sequences as Ziegfeld's "A Pretty Girl is Like a Melody," "Parade of the Wooden Soldiers," "Flora Dora Sextet," and "Blue Danube."

In addition to the professional talent, a chorus of 250 voices chosen by state wide auditions will sing and the famous State Fair fireworks display will round out the sensational entertainment presented nightly in front of the grandstand.

A. B. Lang of Stockton is chairman of the fair board's entertainment committee, other members being T. H. Ramsey, Red Bluff; Harold J. McCurry, Sacramento and Charles H. Sooy, San Francisco.

VOTES AT 20

Otho Davis of Arcata, whose 21st birthday falls on Aug. 31st, will vote for Gov. Merriam on Aug. 30th, the youngest voter in California.

YOUNGEST VOTER TO CAST BALLOT FOR MERRIAM

Although only twenty years old, Otho Davis of Arcata has registered and will vote for Governor Frank F. Merriam on August 30.

Otho was born August 31, 1917. He will, of course, be 21 on August 31, 1938. It would seem that under the California law, which requires that all voters be 21 before they cast their first ballot, that Davis would miss one election.

However, he claims that one's legal birthday is one day before his actual birthday, and the California courts, according to the Arcata Union, have held that such is the case.

This will make Davis the youngest voter in the state. He says: "I am very happy to have this chance to cast my vote for Governor Merriam."

Another young Republican, too young to cast his ballot for the governor at the August 30 primary but who will vote for him in the general election November 8, is Talmadge V. Burke of Alhambra.

Young Burke, a student at the University of Southern California, in a letter to the governor explained that along with his vote he would add the vote of 20 or 30 of his young friends all students at the southern university.

Other students at Stanford and California have formed an all-American club to back the governor's re-election.

MOTHER ACCUSED OF CORRUPTING DAUGHTER

Arrest was made this morning of a man giving the name of Bob Wear, and the mother of a fifteen year old girl in Grass Valley. The mother is accused of inducing her daughter at the age of 13 to become a prostitute, and of living upon her daughter's earnings. For two years this girl has been abetted by her mother. according to the daughter's confession, in a life of shame. According to Probation Officer A. W. McGagin, the girl, little more than a child, has given him names of several men who have paid her for intimacies, and other arrests will follow:

GRIM REAPER CALLS MRS. ESTELLE PAXTON

Mrs. Esteelle Margaret Paxton of Grass Valley passed away Friday after an illness of four years. She was the wife of John R. Paxton mill man for the Idaho Maryland mine company at Forbestown, and had resided in Grass Valley about ten months. Holmes-Hooper Funeral Home were in charge of funeral arrangements. Rev. H. H. Buckner of Nevada City had charge of funeral services which were held this afternoon with interment being made in Elm Ridge cemetery.

R. O'Brien, who is with the Bank of America in Nevada City, went to Sacramento Friday and met his wife who returned with him. They have taken a cottage on the Tahoe Ukiah highway east of Nevada City.

Hydraulic Miners Honor Englebright

The California Hydraulic mining association feted Congressman Harry L. Englebright Saturday night at a banquet in Hotel Auburn in Auburn. More than 160 persons sat down to dinner.

William G. Allen of Smartsville was toastmaster. George Hallock of Alleghany, president of the association, presided. Among the speakers were Jos. Hall, former president; Judge George L. Jones, of Nevada City; Walter Bradley, state mineralogist; W. D. Taylor, principal owner of Relief Hill mine; Col. Hannum of the California Debris Commission, Paul Downing, vice president and general manager of the Pacific Gas and Electric company, and Harry L. Englebright.

Paul Downing stated that his compay was ready to co-operate with the association in developing the placer mining resources of the Bear river gravel deposits of which the company is now the largest owner. He stated, however, that due to the character of the soil in this canyon, washing it leaves a discoloration which is difficult to eliminate by the usual processes of settling. He mentioned the fact that the P. G. & E. is the owner of a debric dam, at Bullard's Bar, and that the company sells space to mining interests for storing debris therein. The company's primary interest must be to supply clear water for domestic and irrigation purposes, he said.

Col. Hannum stated that some agricultural interests were still suspicious of the debris dam project, but declared that he could see any ground for apprehension, since the dams when constructed will stop not only erosion debris that goes on year in and year out regardless of gravel mining.

Congressman Englebright called attention to the fact that a bill which he succeeded in having passed near the end of the last session of Congress, provides that other revenues derived from the use of the debris dams, such as the sale of power and irrigation water, shall be used to defray the capital cost of the dams, and thereby reduce the yardage rate which hydraulic miners must pay for storing their yardage.

ROTARY TO HEAR FOLSOM WARDEN

Warden Clyde I. Plummer of Folsom State prison will address the Rotary club next Thursday at luncheon. Sheriffs Carl Tobiassen, Gum and Johnson of Nevada, Placer and Sierra counties respectively, and Chief of Police Garfield Robson, have been invited to attend.

MURCHIE CLOSED FOR WEEK

The Murchie mine east of Nevada City was shut down Saturday evening and crews laid off, only maintenance men being retained for a week, until a new ore bin can be built. It is expected all men will be back at work Thursday evening. The Murchie mine employs about 130 men.

WANDERING BOY IS RETURNED TO HOME

Probation Officer A. W. McGagin received a card from Lorenz Weithon from Chicago today. The officer placed the 15 year old boy, arrested with a demented young man at Truckee recently, on a bus and sent him to his mother in Chicago. The card stated he had arrived safely and wanted the officer to write to him. The young man arrested with Woithen was sent to Stockton about two weeks ago.

SPINNERS CATCH TROUT

Frank Ghidotti, manager of the Cardinal Store in Nevada City, is again smiling with happiness over his good luck bringing in another fine limit of trout, all weighing about three quarters of a pound each, "Whispering Dick" Lane was with him and also caught the limit. The only drawback to their wonderful "hole" is the fact they have to walk six miles into the place and walk back the same long distance. Ghidotti stated spinners were used to catch these fine fish.

Mr. and Mrs. William Clemo of Palo Alto will arrive tomorrow to visit with Clemos mother, Mrs. Clemo, Mrs. Fred Sauvee and Misses Bernice and Lila Clemo.

Judge Raglan Tuttle of Nevada County is holding court in Santa Barbara this week.

Supervisor Jay Coughlan of North Columbia was a business visitor in Nevada City today.

Mrs. Ida Guenther, who spent her vacation in San Francisco, Los Angeles and Bakersfield, returned last evening. Her daughter and husband, Mr. and Mrs. Clay Epperson and small son of Bakersfield motored to this city with her, and after a short stoy here will continue on their vacation.

Misses Winifred Martz of Reno, and Ruby Martz of Los Angeles visited their parents Mr. and Mrs. Ed Martz on the Murchie road last Friday.

MISS KENT RETIRES FROM SCHOOL RACE

To the legion of friends who have carried on my campaign during this very strenuous summer when heart, mind and effort on my part could not be given to seeking service in a more honorary and a broader field, and to the voters who would have supported me in the coming primary election for county superintendent of schools, I take this means of asking your privilege of a final withdrawal of my candidacy.

This is the only means I have of making known to you my desire to remain in my present teaching position in Grass Valley. My reason for withdrawal is that I feel the need of the summer vacations that the teaching position will permit and that the exacting summer duties of the office of county superintendent would prevent. I should like so much to devote the summers to travel and study.

I feel a deep obligation to the many who have so loyally given their help and support and it is with great reluctance that I make this decision; but the confining years of the past decade renders it desirable that I have a change! so please forget my name is on the ballot, forgive me and vote for my most worthy opponent.

Thank you.

GENEVIEVE KENT.

FIRE RAVAGES CAPE HORN DIST.

About 200 CCC enrollees, and fire suppression crew members of the State Division of Forestry and a couple of Southern Pacific train crews extinguished the Longs Ravine fire that flared up suddenly last Friday in the Cape Horn section ,east of Colfax, and burned over about 2000 acres of grass land, brush and young timber before being brought under control. It started on the Southern Pacific right of way and was carried by a high wind into a point where it affected the east and west travel and communications.

The Nevada County Narow Gauge Railroad suffered the most severe loss but was able to resume operations Saturday after section crews replaced burned ties and a cattle guard. The company also lost several box cars, flat cars and stacks of ties which were at the spur on Smith's Flat between Highway 40 and Colfax. The Southern Pacific company lost ties, and a wooden trestle in Longs Ravine was saved from the blaze several times.

The Pacific Gas and Electric company lost 16 poles, Postal Telegraph 25 and Pacific Telephone and Telegraph 27.

Mrs. Julia Allen of upper Boulder street is confined to her home with an attack of illness.

Pocketbook Insuranse

News reports indicate that the voters of one California city, San Francisco, will decide on bond issues totaling twenty million dollars in a special election. Twenty million dollars of borrowed money!

Who eventually will be responsible for those loans? The city's taxpayers of course. The same group that already foots the bill for schools, police, health service, fire department, streets, and other public projects.

And who will decide whether or not to borrow those added millions? Fortunately California taxpayers still possess the right to say yes or no on the question of borrowing. Under the safeguard of a two-thirds vote requirement, common property taxpayers can still protect their pocketbooks when an unsound or unnecessary bond proposal is made.

But there are those who would destroy that right, who would grant to non-taxpayers, to relief recipients, to the hundreds of thousands who came to California as indigents and have never spent a dollar of their own money here, the power to outvote the taxpayer, who with his dollars, makes the wheels of government and relief go 'round. There are those who unthinkingly will support the Garrison Bond Act, which would place the power to borrow in the hands of a bare majority, destroying the state's only safeguard against random debt-building.

San Francisco confronts the problem of whether or not to borrow twenty millions. Whatever the answer may be, it will be the will of two-thirds of the city's voters. If the Garrison Bond Act were now in effect, that decision would be controlled, not by those who pay the taxes, but by those who have little or no financial stake in the state's future.

There's a vital lesson in San Francisco's problem for the rest of California! We need to maintain our pocketbook insurance.—Contributed.

Wanted - Diogenes

Lost: one seeker after truth. Diogenes by name. That want-ad will have to be inserted in the daily press if the famous Greek lamp-carrier doesn't turn up this week, for honesty has certainly been featured in the news.

In Illinois, one George M. Rentschler has just handed the state 1,500 dollars. Years ago, says Mr. Rentschler, he had a state job, but didn't do any work. He's been saving all these years to pay back the "unearned" money.

In Virginia, Judge P. Woolls turned down a salary increase. "I'm making more than I'm worth now," said the judge.

But from Chicago comes this week's prize tale of mass honesty. An unidentified man dopped 29 dollars in dimes, quarters and half-dollars. The passers-by, scores of them, helped him pick up the hundreds of coins. When he counted up, he had —29 dollars.

Yes, Diogenes should be paged. For when such spectacular evidence is produced that honest men are abroad in the land, the Searcher for Honesty ought to be about, to witness that proof.—Contributed.

Relief From Relief

Two hundred million dollars—six times the cost of the Golden Gate Bridge—enough to finance the entire Colorado River Aqueduct! That's the bill, according to latest figures, presented this year by California's 900,000 men and women on relief. And still the burden grows! Today, as this is read, the streets of border cities are tracked by the worn tires of aging cars, cars whose owners urge them on the last few miles into the promised land.

Daily the migrant thousands add new weight to the relief load. And finally, with growing insistence, state leaders are demanding that the federal government recognize the national character of the migrant problem. In the words of Sheridan Downey, candidate for the U. S. Senate: "The unemployed are drawn to California like flies to a jar of honey. I firmly believe the swarm will continue to grow until the lure of our relief wages has been equaled in other states."

Equalization of relief wages on a national scare is step one in solving the migrant menace. "Step two," says Downey, "is the passage of an adequate national old-age pension plan."

With the necessity of a nation-wide adjustment in relief payments, most Californians will agree. Mr. Downey's second point has only begun to draw thoughtful, serious comment. It seems clear at least that oldsters of other states, adequately cared for, won't become California migrants on relief.

This state long has led the nation in caring for the poor, the aged, and the unfortunate, with few questions asked. But if other states will assume their just share of the burden, California will be in a position to aid more of her own citizens in the struggle back to solid ground.—Contributed.

NORVAL HAGEN, MANAGER OF POLARIS MINE

A message has been received from Norval Hazen, young mining engineer, who went to Nevada about two months ago to take a position with the U. S. Milling Company's Polaris mine at Rhyolite. He has been promoted from assayer to superintendent of the property. The company is supplying ore for a 100 ton mill and raising the new shaft three hundred feet. A plan for extensive development work is also under way. Young Hazen was employed at the Idaho Maryland mines and in local mines during his stay in Nevada City and the many friends he made will be pleased to learn of his successful promotion and good fortune.

Mr. and Mrs. George Gildersleeve and son left Sunday for a week's vacation at Vallejo. Mrs. Gildersleeve will attend the Grand Council of Degree of Pocahontas.

'How Can He Work?'

Everyone but the man on the steel frame stopped work on the new assembly hall eight months ago when these Sacramento co-eds strolled by and this picture was snapped. (Can you blame them?) But since then the men have tended to business and the building will be completed in August. Oh, yes, don't forget the State Fair and Exposition is to be held in Sacramento September 2 thru 11—yes, the girls will be there, too. Left to right, Nola Swain and Elsie Wooden.

JITTERS CAUSED BY FAST WORLD COMMUNICATION

LOS ANGELES, Aug. 15.—Man is using his highly developed rapid communication system in a frantic race back to barbarism.

This is the belief of Dr. Alfred Metraux, ethnologist of the Bernice Pauahi Bishop Museum at Honolulu Hawaii, who has been teaching anthropology in the summer session on the Los Angeles campus of the University.

In the primitive society every member of the tribe knew almost immediately of every event that happened within the organization. The opinion of the whole tribe was immediately crystalized on any issue; the chieftain could make a speech and arouse the group to war on a neighbor.

Today the same thing is happening on a world wide scale, according to Dr. Metraux. Through telegraph, radio, and newspapers the nations of the world have been brought to the level of huge tribes; action of the masses is immediately crystalized in any international incident, any event of national affairs.

Until rapid communication brought this strange phenomenon any single event affected only a small proportion of the population of a nation at one time. Waves of emotionalism that sweep nations today were unknown. Diplomats could play at the old game of international politics and settle differences without the constant pressure of opinion at home.

But today the chief is swept along by the tribe; he no longer has freedom of action .This is what makes the world so jittery; threats of war are much more frequent than ever before.

It will take a long time for the world to become adjusted to this state of tribe mentality, of uniformity of people, according to Dr. Metraux. The best way to prevent a war that may destroy civilization before an adjustment is made to the new condition is through the propaganda of fear; as long as man fears war he will remain at peace.

Little Joe Scott of Park evenue received a gash on his head Sunday forenoon when his bycycle slipped off the high sidewalk near Mrs. M. Gunthers home and fell to the street below, the bicycle landing on top of him.

CRIME NEEDED TO PEP UP RACE SAYS U. C. SAVANT

The Necessity of Crime is the title of an article by Dr. Knight Dunlap, professor of psychology on the Los Angeles campus of the University of California, that is soon to be published by the California Monthly, the periodical magazine of the University of California Alumni Association. Dr. Dunlap points out that the average citizen considers with abhorrence any kind of crime, and in general accepts the opinion that crime is not necessary.

Dr. Dunlap points out that without crime, unless laws were broken, then no progress would be possible. When obedience to every law is universal, then society crystalizes and there is no change. From the time of the Savior, he says, the world has progressed because of crime.

The Christian martyrs were lawbreakers, he points out; George Washington was guilty of treason against the British; several past presidents of the United States have violated the Constitution. He continues:

"In the sphere of custom and convention, the benefits of crime are apparent. Crime is to be considered as a drastic means, not as a permanent end, and is justifiable if it leads to the abolition of crime through the abolition of the laws which create it".

His arguments with supporting evidence will all be published in the article to appear in the September issue of the California Monthly.

Mrs. Ed Schmidt of Factory street celebrated her birthday last Friday. She is past 80 years of age. Visitors, and cards brought messages of joy and happiness.

WHY NOT EMPLOY A TRAINED CORONER?

A presumption, apart from evidence, may be often determined in certain cases by the fact that a very large number of deaths is caused by accident during occupation or while bathing or boating, or of set purpose, as in suicide. It must not be forgotten that a body may be thrown into the water to cloak the commission of crime in another form. Presumption is of no value whatever when an examination of the body will indicate proof. The question often arises: Was the person dead or alive before the body was submerged in the water? Only a Doctor who is trained and qualified can determine this question.

There are in addition certain medico-legal forms of death from causes which usually form the subject of criminal investigation. Among these are the following: Death by drowning, by suffocation, by hanging, strangulation, and throttling, by lightning and electricity, by burning and scalding, by criminal neglect and starvation, by cold and exposure, by heat apoplexy, and by mortal wounds. Who is better qualified to determine these causes—a Doctor who is Coroner or a layman?

Place the Coroner's Office in the hands of a Professional man where it rightfully belongs. Your support will be appreciated.

RADIO ACTIVE MAN TO FEATURE U. C. EXHIBIT

BERKELEY, Aug. 15.—The first exhibit to start setting up operations in the great Hall of Science at the Golden Gate International Exposition, the University of California display will be in place and "ready to go" by January 1, 1939, it was announced here today by W. J. Norton, general manager of the $200,000 enterprise. Much of the framework, which will cradle one of the greatest scientific displays in world exposition history is already in place.

Two feature units of the display, depicting the spawning of the eels, a fresh water fish, in the depths of the Atlantic, and the spawning of the deep sea-going salmon in the fresh waters of coastal rivers, have arrived from Washington, D. C., and will be installed within the next few weeks. The two units were designed by Dr. Jay Pearson, who is in charge of the biological features of the University's display.

Another unit, the "radio-active man" which promises to be a widely discussed feature is rapidly approaching installation time. The figure has been cast and the mechanism which operates it is on hand. The "radio-active man" swallows marbles in which small quautities of actual radio-active substances have been placed. The marbles are supposed to resemble atoms. It will be easy to follow the charged "atoms" through the man's body through a highly sensitive "counter" which is activiated by the radio-active substance and which gives off a buzzing sound. The installation is intended to show just where curative radio-active substances odge in the human body.

MT. ST. MARY'S WILL CELEBRATE 75 ANNIVERSARY

The Sisters of Mercy in Grass Valley will celebrate their diamond jubilee on Saturday, August 20, seventy five years after the arrival in Grass Valley of the first of the order to establish the series of Catholic institutions which have prospered and endured to this day.

Father Dalton, early Catholic priest, was responsible for the instituting of the Sisters of Mercy in Grass Valley and their foundation here brought the Catholic schools, orphanages, convent and related institutions.

The celebration mass will be held with special music and services at St. Patrick's Church at 10 o'clock with Monsignor Horgan presiding and clerics, attending from northern California and Nevada. The remainder of the day will be an open house and reception period for meeting of the Sisters.

The annual reunion of graduates and former members of Mount St. Mary's Academy will be held at two o'clock Sunday afternoon, August 21.

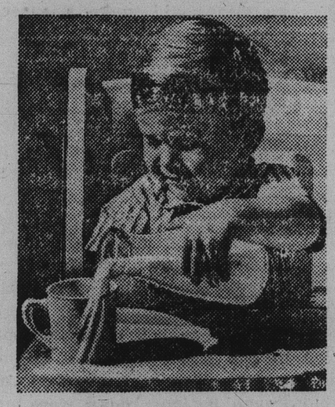
Um, yum! Looky here! A whole quart of nice, cold milk, and all for yours truly. This is what I calls something really okay.

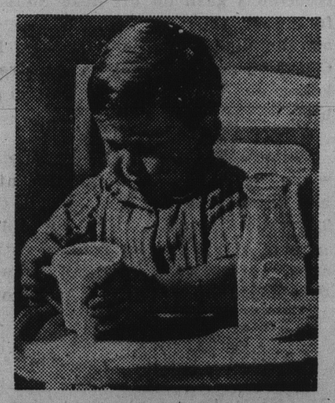
I've never poured my own milk before, but it hadn't ought to be much of a trick.

A good eye, a steady hand and a will to win are all that's necessary.



It's a cinch. Never a slip. Couldn't miss if I tried. I'd have poured my own months ago if I had realized what a soft job it is.

Well, no use being stingy, with a whole quart set out for me. Might as well give it the works.



Now here's the thing that takes real skill. For I've heard Grandma say there's many a slip 'twixt the cup and the lip.

JULY DECLINE IN RETAIL PRICES IS BUT SLIGHT

By JOHN CRADDOCK

NEW YORK, Aug. 15. — BUSINESS—Prices in retail stores registered the smallest monthly decline during July since September, 1937, when a downtrend began that has lowered average retail prices nearly eight per cent. Reports from the country's manufacturing plants continue to indicate reviving employment. Last week thousands of telegrams were sent to employes of leading motor plants telling them to report for work immediately. Intensive operations in the Detroit area are about to start. America's export trade is holding up nicely. Business prospects generally are bright, except for a disturbing decline in farm prices the last few weeks. In the last month cash wheat prices have dropped about nine cents a bushel, corn 10 cents, rye 10 cents, oats five cents, pork $1.50 a barrel and beef $6.00 a barrel. This means a loss of rural purchasing power, which enlightened business men today recognize as an indispensable factor in keeping the wheels of industry turning.

Born—To Mr. and Mrs. Marvin Soper, Sunday, August 14 ,at Hirsch Sanitarium, Grass Valley, a daughter.

Mrs. Leslie Land left today for Sacramento where she will visit her brother, Ira Horner.

Social Events

Miss Ruth Godfrey Weds Rex Robinson

Miss Ruth Godfrey, 17, and Rex Robinson, 21, were married in Reno, last Thursday. The brides mother, Mrs. Annie Godfrey accompanied them and was a witness to the service.

The wedding comes as a complete surprise to their many friends in Nevada City where they will make their home. Both young people graduated from the local high school this spring and are popular with the younger set.

The groom is with his brother, Beryl Robinson, in the Richfield Service Station on Sacramento street. The young couple are living in a cottage on East Main street near the brides mother. The bride is the daughter of Mrs. Annie Godfrey and the late Anthony Godfrey highly esteemed pioneer residents of this city.

Camptonville Women To Give Card Party

CAMPTONVILLE, Aug. 15.—The Womens Club of Camptonville held the regular monthly meeting Friday evening at the Groves home on Spring street with a good attendance. It was voted to give another public card party on Friday evening, August 26th.

Following the meeting refreshments were served by the hostesses, Postmaster Lydia O. Groves and Mrs. Olive Groves.

BIRTHDAY PARTY

Mrs. Minnie O'Shay of Park Avenue gave a party Friday afternoon honoring the birthday of her small son, Daniel O'Shay. The group of children had a joyous time playing games until late afternoon when dainty refreshments were served. The little boy received several nice gifts.

Present for the afternoon were Ward Wyman, Frances Wyman, Tony Scott, Benny Scott, Joe Scott, Gene Scott, Juanita Williams, May Tom, Daniel O'Shay and Cleo O'Shay.

MOTHER'S BIRTHDAY

Mrs. Tony Rore served a delicious dinner the latter part of last week honoring the birthday of her mother, Mrs. John Ghidotti. A few close friends were present for the happy occasion and had a very enjoyable time.

Mrs. Eva Clutter and sister, Mrs. Phoebe Hathaway returned last week from Reno, where they were called on account of the sudden death of a brother in law.

Miss Dorothy Jones of San Francisco who has been visiting Mrs. J. J. Jackson, Jr., left Saturday for her home.

Merle Edminster came over from Nevada state and spent the week in Nevada City with his wife and children who have been visiting here two weeks.

Mrs. W. Irving and daughter of Watsonville visited Nevada City last Friday. Mrs. Irving is a former Nevada City resident. Her husband owns and operates the Irving Airport at Watsonville.

Mrs. Leland Smith left early this morning for Susanville where she will meet a brother and her son, Warren. The boy has spent the summer on his uncle's big cattle ranch near Alturas and has had a glorious time.

Don Tyler of Texas, who came to Nevada City several weeks ago to visit Mr. and Mrs. Ed Conley, has left for Beatty, Nevada, having accepted a position in a mine there.

Miss Marie Mlinarch of Eureka arrived Friday for a ten day visit with her brother, John Mlinarch and family on the Tahoe Ukiah highway.

THIS AND THAT

By ROY GRIFFITH DEETER

We suffer from a more-than-usual Monday morning confusion: We do wish some kind soul would really give us the low down on this $30.00 a week thing. Economists, scream against it, the man-in-he-street is all for it, attorneys declare it constitutional, the attorney general conceived it. Some yell "deflationary," others cry "inflationary" this one assures you it will save the country, the next one says it will cause a revolution, we have heard no two opinions of the measure that are alike, and here we are getting dizzier and dizzier, understanding nothing at all about it and feeling only this, that we are always just a mite suspicious about anything that is something for nothing! Won't someone give us just one good reason either for it or against it? We hope this office will not be too swamped with replies.

We are again a bit behind, But—we found a delicious place Our sleuthing, we know is notoriously lagging, but every once in awhile we catch up with the rest of you, and gee we are just a pleased as if we had gotten there first! Right now we have in mind a trip to the lake. (Tahoe, of course), upon a day not too long ago. We had been showing an artist this beautiful spot, (if you really want to enjoy the lake, take along an artist who has never seen it before, you will be even more delighted with it yourself, if that is possible!) but to get back, we got awfully hungry and along about sunset we found Prusso's, yes, we know, you know about Prusso's, but we didn't and oh me, were we simply walloped with wonderment! Nicest place, nicest bar, and nicest food we can remebber, at any rate this summer—we are going right back there this very next Sunday.

In re signs—We have had an army of city folks as house guests these past few weeks, and one thing about our fair city that they all noticed and were simply delighted with were our lovely new street signs, personally we think they are the best looking things ever, and while we deplore people going around stealing them, we can almost understand it. We hereby take ouh hats off to the bloke what done 'em.

Well, we hear hammers ringing upon nail heads, which is our cue to dash out and get mixed up with our latest project, and so with this we say, hullo Mum, and cheerio everybody!

Jim Baldwin, who is interested in a mine at Forest Hill, spent last week at the Ed Conley home recovering from an injury to his hand which had become infected. He left Saturday for the mine.

Mrs. Ben Sheldon and grand children of Sacramento visited friends in this city the former home of Mrs. Sheldon, early this week. Mrs. Sheldon is in business in Sacramento.
